KLICKITAT COUNTY FIRE DISTRICT 3

200 Husum Street, Husum, WA 98623
Commissioner's Meeting
Thursday January 12 2017
Minutes

Called to order: 18:30

Attendance: Commissioner Zoller, Commissioner Connor, Commissioner Montag –Quorum present. Chief Long, Secretary Plumb, Tom Culp, Bo Aplin, Daryl Horn, Lisa Evans, Mike Renault, Bill Couse, Christie Hessler, Chuck Virts, US Post Office representatives Sue and Debbie Alaway. Eric Bosler.

Approval of agenda: Motion to approve the agenda for January 12 2017 meeting made by Commissioner Montag, Seconded by Commissioner Connor. (3 yay 0 nay).

Public Discussion: Discussion revolved around the need to relocate the Post Office from the current location on DNR property. A new purpose-built building (10x40 building plus 7 parking spots) would replace the current building. Options for placement include behind the Fire Department. Work would be needed to assess access if it were to be placed behind the fire Department. The fire Commissioners noted the space behind the department is also needed for training. Chuck Virts and Chief Long both think there may be enough room for both activities. Sue noted she has spoken to other land owners including Don Struck and Sandy Lock, but there are no other options available at this time, or she has not heard back from them. The project would need to involve no cost to the department. USPS would need to install the road. Chief Long noted he has a concern for fire load of another building. The residents adjacent to the building would also need to be onboard with the project. There would also be a monthly lease paid by the USPS, which may help fund the fire Department. No decisions will be made at this time, but he Commissioners asked for direction on the future discussion points needed for them to assess the option.

End of public discussion – most members of public left the room at this time.

Fire Chief's Report to Board of Commissioners January 12, 2017

Safety:

One firefighter/EMT slipped on ice during EMS call. Member bruised wrist, but otherwise OK.
 Roz submitted accident card to BVFF. Report narrative completed and on file.

Customer Service (emergent and non-emergent):

- As of 1/9/17; 15 calls for service this year. All EMS
- Attempted follow up with patient off of Northwestern Lake Road to see how he/she is doing.
 Nobody home.

Projects:

- Bid for Contractor Station 32 heating and bathroom projects. Submitted draft to Board, District Secretary, and Captain Helton for review to ensure nothing is missed. Waiting for energy audit to complete and will then send out notifications via approved MRSC process. NOTE: January 12 update: Verified with Klickitat County Health Department that we will be able to connect to the existing septic system for the bathroom project. They will be providing written documentation to us via mail. This eliminates the need for a holding tank with the project and should significantly reduce the overall cost. I have updated the Bid for Contractor document to reflect this new information. Barring Board's objections, I recommend to move forward with replacing the system with an electric heat pump.
- Completed Tender 314 storage box project. Unexpected expense for 2016. Box will be installed at a later date.
- Brush 323 moved to Station 3 due to heavy snow in the area. More useable fire apparatus as it is a 4X4. Heavy snow in driveways has proven to be a challenge for EMS responses.
- Working on Annual Recognition Dinner 1/28/17
- Energy audit from Klickitat County Public Utility District scheduled for 1/10/17. Commissioner Conner scheduled to attend. RESCHEDULED for January 30th 2017
- Winter tire chains purchased for Brush 312. New vehicle with different size tires. Will surplus old unused tire chains. Potential buyer for 3-rail chains from old tender.
- Winter tires purchased for Ambulance. Will seek out a deal for rims throughout the year to save on mount/remount costs in the future.
- Initiated apparatus documentation process with tracking capability for all drivers to comply with EVIP and training documentation.
- Continuing to work through Administrative policy review.

- Water trailer at Station 33 has been moved to verify wheels are not locked up and tires are up. Will work toward a plan to have plumbing repaired and paint in the spring. Trailer re-positioned parallel to the fence. Tank is empty. Received notification that FEPP (DNR) will be conducting physical inventory of our trailer. It has NOT been painted and/or licensed and insured as per the agreement. I intend to arrange to have it painted, licensed and insured in the spring. It was moved in December; however it slid off the blocks and is currently leaning toward the front (nose). It will have to be lifted once the snow goes away.
- FF Harmon inspected the heaters at Station 3. Was able to get all four back and running again which reduces the load on the one unit that was working hard to keep the building above freezing.
- Removed garbage at Station 2 to facilitate another vehicle. Chuck Virts assisted.

•

- Troubleshooting Station 33 heaters. Only one wall-mount heater is working. Concerned about overload, failure, or potential fire due to strain on one heater. Previous inspection stated they needed replaced per A/C Nelson.
- Scheduled update meeting for January 18, 2017 with the Community Taskforce members. One reply at this point. Will make phone contact with them to verify attendance. If more than one Board member chooses to attend, please inform Roz or myself so we can properly create an announced "workshop" for that date. OPM compliance.
 - Provided 'official' signature to the Bingen Point Emergency Response Plan for Klickitat County Department of Emergency Management.

Fire District and Firefighter Association Events:

• Association meeting rescheduled to 1/10/17 due to personnel being out of town.

Community Events:

 Presentation to 5th grade class (assembly) for fire/EMS career day. Date to be announced by ESD 112.

Fleet:

- Brush 323 received a new battery switch. Replaced two batteries aged over 9 years.
- Fleet maintenance and inspections will be completed in January this month.
- Engine 311 acquired an anomaly with lighting. Holding for annual maintenance for repairs.
- Held off on battery and tires for Expedition. It hit 160,000 miles on January 2nd.
- 1/12/17 Gathered information on fleet to begin purchasing filters for annual maintenance from Amazon.com This should save a significant amount of money compared to purchasing filters at local vendors.

Personal Activities and Achievements:

Applied and was accepted for a February 2017 class in Ellensburg WA. Introduction to Wildland Fire Behavior
Calculations. This class will allow me to request DNR to consider me for Division Group Supervisor "T" for the
upcoming fire season. NOTE: This class conflicts with the February 2017 Board Meeting. Unless the Board objects,
I'd like to be in attendance via telephone from my hotel room.
